Only Moderate Increase in Activity After Opening.

PRICES WERE IRREGULAR

Sharp Advance in Rates for Sterling Exchange.

CASH GAIN CAUSED SURPRISE

No Alteration in Money Conditions.

U. P. and Reading Furnished Large Quota of Dealings.

Special Dispatch to The Star. NEW YORK, May 17.-There were several features in today's situation-at-large which had been expected to lead to greater animation in the stock market, but as a matter of fact there was only a moderate increase in activity, and price movements were again irregular and for the most part limited. For one thing, the grain market advanced to new high figures for the present season, although it should be said that the movement in that quarter was again a reflection rather of foreign than domestic crop conditions. In fact, the day's advices with respect to the state of the weather in the west continued favorable.

There was also a very sharp advance in the rates for sterling exchange, which carried the figures up to a point which set foreign banking houses to the making of calculations upon exports of gold. Rumors of actual engagements of the metal for export were current from time to time during ing the day. The sharp rise in sterling exchange was caused in part by the usual demand for remittances at this period of each month, and was also attributed to some extent to the freight blockade due to the longshoremen's strike. The preliminary estimates of the princi-

pal movements in currency during the week indicated a gain in cash by the banks of about \$3,200,000. This was a rather sur-prising showing, as they had gained less than \$1,000,000 in their operations with the subtreasury, and it had not been suspected that they had fared so favorably on the general interior movements of currency. Money market conditions showed no alteration in any respects.

The financial plans of the Chesapeake and Ohlo and the General Electric companies, announced late yesterday afternoon, were followed up today by the announcement that the North American Company had ar-ranged the issue of \$5,000,000 in 5 per cent notes. All of these stocks were heavy to-day, reflecting the distaste with which all corresponding information is now re-

Otherwise the day's news relating to in-dividual stocks was confined to statements of earnings and other routine matters.

Traction Report Showed a Deficit. The annual report of the Interborough-Metropolitan Company was published today and showed a deficit after the payment of dividends on Interborough-Metropolitan preferred and Metropolitan Street Rallway of \$1,300,000. This showing compares with a deficit for the previous year of about \$2,300,000, hence the statement might be regarded as a favorable showing a negative sense. The Interborough-Metropolitan shares were heavy, however, as was Brooklyn Rapid Transit, and doubt-less the prospective passage of the public utilities bill was the chief explanation of

THE COTTON MARKETS.

NEW YORK, May 17.-The cotton market opened steady at an advance of 2 points to a decline of 2 points in keepir with the English market, which was relatively firm on the near positions. The weather map made a favorable showing and the forecast was for clear and warmer weather today, but there was a good demand on the private crop damage reports received from the south, and while somewhat irregular prices ruled steady. Spot interests and houses with southern and western connections were buying, while the chief sellers appeared to be yesterday's longs taking profits. Prices worked up to a net advance ~. 3a7 points during the early session, but later reacted under realizing, and during the middle of the morning were about 1a3 roints higher. Futures opened steady. May, 10.90; June, 10.88 bid; July, 10.94; August, 10.92; September, 10.94; October, 11.05; December, 11.08; January, 11.20; February, 11.23 bid; March, 11 30-11.32.

March, 11 30-11,32.

The market was a little less active toward midday and ruled irregular, with prices about 5 points down from the best. July held a gain of 2 points over last night's finals, but later months were 1 to 3 points

Spot, quiet; middling uplands, 1205; middiing gulf, 12.30. Estimated receipts at the ports today, 7,000 bales, against 9,809 last week and 17,008 last year. For the week, 60,000 bales, against 59,332 last week and 80,374 last year. Today's receipts at New Orleans, 1.187 bales, against 2,150 last year, and at Houston, 1,330 bales, against 1,253 last

THE GRAIN MARKETS.

CHICAGO, May 17.-Heavy profit-taking caused a weak opening for wheat today, initial quotations ranging from 1/2 to 2 below final figures of the previous session. A sharp upturn, however, quickly carried September and December deliveries past the dollar mark, September advancing to 1.01 and December to 1.011/2. Again the market weakened under a flood of selling orders, and prices dropped back about 2c. Weather conditions in the Canadian northwest were again favorable to seeding of spring wheat, temperatures today ranging between 30 and 40 degrees. This gave considerable encouragement to the bears. The bulls, on the other hand, were strengthened in the belief of higher prices by an advance of over 1d. at Liverpool. July opened 1/2 to 2 lower, at 961/2 to 98, sold up to 90% and then reacted to 98. September opened 1/2 to 2 lower, at 971/2 to 90, rallied to 1.01 and then broke to 90%. December opened 1 to 2 lower, at 99 to 1.00, sold at 08%, then up to 1.01% and back again to 99%. Minneapolis, Duluth and Chicago reported receipts of 428 cars, against 505 cars last week and 115 cars a year ago.

The corn market opened weak in sympathy with the break in wheat, but quickly rallied and became strong. Much of the strength was due to the small local receipts, arrivals today being only sixty-five cars. July opened 1/4 to 1/4 lower, at 52% to 52%, and advanced to 53%.

There was an active general demand for oats. Commission houses led in the buying. July opened unchanged to ¼ higher, at 41% to 44%, and sold up to 45.

The wheat market advanced sensationally later, July bounding to 1.02% and closing 1% over yesterday, at 1.00%; September, to 1.03%, and closing 1% up, at 1.01%, and December, to 1.03% (a new high record), and closing with a net gain of 14, at 1.024, The corn market continued strong, and July, after touching 54%, closed %2% up, at

53% a53%.

Trade in oats was heavy and advanced with Trade in oats was heavy and advanced sharply. July sold at 47% and closed with a net gain of 2½, at 46%.

LOCAL FINANCIAL NEWS.

The event at the meeting of the stock exchange today, which would otherwise have been a day without any specially striking incident, was the sale of a block of a thousand shares of the common stock of the Washington Railway and Electric Company. The transaction, although unusual becaus of the size of the block, was done as if it was only the change in the ownership of a quotation lot of fifty shares,

The principal dealer in this security bid 39¼ for the stock, as he did yesterday, and as he has done frequently before, and en-larged his bid to include a thousand shares or any part. A broker who has not been prominent in the trading in this stock quietly responded to this bid by the single word "Sold," and the transaction was com-pleted.

It was not the first time the buyer had such a block of stock come down upon him at one time, and so he did not show any

at one time, and so he did not show any visible signs that anything out of the common had occurred. On the contrary, he promptly renewed the bid for a similar amount, and when no response came he offered to buy or to sell any part of a thousand shares on that level.

He also bid 89½ for an option on a thousand shares, and followed it up by raising that bid to 40 for a much larger block.

At the close the bid was 39½ and the asking price 39½. No effort was made to find out how much stock there was at the best offering price, but it has been supposed all along that most of the stock on the market at that level had been absorbed by the buying that took place some time ago when the at that level had been absorbed by the buying that took place some time ago when the
Loeb rumor was at its height.

The broker who got the big lot today is
the same who announced that the buying
which he executed some days ago was on
account of interests which favored the
choice of Mr. Loeb as president of the sys-

While the preferred stock of the company was on call the same broker was the principal buyer of some stock that came on the market at 79%. He bought nearly three hundred shares, but then he did not exhaust the supply at that price.

The demand for the bonds of the company was rather limited, and after some buying on a range of from 82% to 82% nothing more was done, and the trading closed with bonds still on the floor at 82%. While the preferred stock of the com-

The market for the 5 per cent bonds of The market for the 5 per cent bonds of the Capital Traction Company, or, rather, rights, was a fairly good one and at a slight advance over the level of yestefday's trading. The sales began on that level, namely, 108%, and soon rose, fractionally, to 106%. There were more bonds at the latter figure for sale than could be dis-posed of, as that was the asking price at the close

No change was made in the figures as compared with those of yesterday at the close of what business was done in gas stock. The buyers of the stocks, the same who began the accumulation of this stock some days ago, added a number of shares to their supply as the result of today's operations. A slight advance was made in the case of some lots over the prices paid

The best price paid today was 64%, while yesterday the highest in the range was 64%. The policy of getting stock without advancing the figures too rapidly seems to be still what governs this movement.

A broker wanted a couple of one-hundred share lots of Lanston. He paid 13 and then there was no further demand from that source. The bid was 12% and the asking

Mitchell Mining stock sold in New York yesterday for 4% and here it sold for 3%. The bid today for it was 4, while the asking price was 4%.

Today's Government Receipts. National bank notes received today for redemption, \$614,882; government receipts from internal revenue, \$859,290; customs, \$1,108,563; miscellaneous, \$214,680; expenditures, \$2,460,000.

DID NOT SEE THE RIOTERS

WITNESSES HEARD REGARDING THE BROWNSVILE AFFAIR.

Why They Believed Negro Soldiers Were Guilty of Doing the Shooting.

The Senate committee on military affaire today heard Geo. T. Porter, general agent of the St. Louis, Brownsville and Mexican railway, who is located at Brownsville, and Chas. E. Hammond, a real estate operator who develops land by introducing irrigation works, who was in Brownsville on the night of August 13, when the alleged shooting up of the town took place. Mr. Porter testified to the disturbance which was going on outside of his house, and to some extent corroborating the statements of Domingeuz and Padron of the police force concerning their movements on that night, but he did not see any of the marauders who were shooting up the town and could not testify concerning their ap-

That night he had said that the negroes from the barracks were out and he supposed that to be the case, as he believed that was the only way such a fracas would occur, as there had been more or less talk that the negroes were unruly. He heard

the working of the chambers of the pieces of the men firing.

At this point in the testimony Senator Lodge went forward to the gun rack, and taking up the Krag rifle worked the bolt, which the witness said was the sound that he heard that night when men were firing he heard that night when men were firing

he heard that night when men were firing across the street from his house.

Later Senator Foraker stepped up to the gun rack and illustrated the sound made by the working of the bolt of the Springfield rifle, and the witness said that it was such a noise, but that he could not be positive that the noise was of a Krag instead of a Springfield. It was a noise of that kind. No Winchester rifle was present, so that the noise that might be made with that gun could not be illustrated. Believed They Were Negroes.

Mr. Hammond was staying at the Miller Hotel and was sitting in front of that place when the shooting began. He did not see those who passed the hotel firing, but testifled to hearing one of them say "There goes the -, let him have it." He said he recognized a negro's voice as making this exclamation, but he saw nothing to further identify the men who were shooting. There was no doubt in his mind that the colored troops did the shooting. Senator Warner-"You had no doubt

Witness—"No, sir; I had no doubt about it then and I have had no doubt about it

There was considerable discussion as to former testimony of this witners, in which he had said that he thought cowboys might be shooting up the town at first, but stated that when he heard the volley he at once concluded that they were negro soldiers, especially as he recognized high-power guns, which he knew were in the hands of the soldiers. He knew the shots were not from pistols.

He explained that he was familiar with various kinds of rifle and pistol shots, as he had been trained as a boy in the hardware business, the sale of firearms and cartridges being an important part of it. He had huntbeing an important part of it. He had hunt-ed a great deal in Texas and had used a Winchester. He was sure the shots he heard were of high-power guns, but could not say positively that they were Krags. Asked whether he had any prejudice against negroes, he said that he now em-ploys a colored man as an overseer, work-ing a gang of fifty or sixty Mexicans, and had no prejudice whatever against colored men.

Policeman Recognized Soldiers. After The Star's report of the proceedings was closed yesterday afternoon - 0 liceman Genare Padron testified that he was at the corner of Washington and 14th streets showly before midnight, and that he saw soldiers in the alley half a block away and that they were shooting. He said he could distinguish their uniforms when the guns flashed. He told of the meeting with the lieutenant of police, but contradicted the statement of Dominguez contradicted the statement of poincy, but contradicted the statement of Dominguez that he had said the men had just finished "shooting up" the Cowan house.

According to Padron's story he accompanied Dominguez back to 13th street and part way to the alley near the Miller Hotel. He said he went no further because Dominguez would not heed his warning not to cross the alley. He told of seeing negro soldiers rush out and fire at Dominguez and follow him some distance down 14th street. He did not see Dominguez when his horse was shot from under him as the men saw him (Padron), and started firing at him. Padron told of the running from place to place to escape danger, and finally of taking refuge in an obscure doorway.

The witness was cross-examined by Senator Foraker at some length without affecting his story. Dominguez also was fecting his story. Dominguez also was cross-examined by Senator Foraker at the afternoon session, but his story was not changed in the least.

KILLED BECAUSE OF STRIKE

NEW YORK, May 17 .- One man was shot and instantly killed and another wounded as a result of a row growing out of the longshoremen's strike in Hoboken today. The dead man was Harry Marshall, a bystander. The man who fired the shot, and who himself was wounded while resisting arrest, is Benjamin Vincent. Vincent is about thirty-five years old and is said to have been employed by a detective agency on one of the docks affected by strike. Vincent narrowly escaped lynching at the hands of a crowd of angry strikers before he was taken to a police station.

Death of George W. Balloch. George W. Balloch, a patent attorney, died today at his home, 2445 Brightwood avenue. Announcement is made that funeral services over his remains will be held Sunday next at 3 o'clock p.m.

Warrant Applied For. A local detective this afternoon applied at the Police Court for a warrant for the arrest of Col. Charles A. Edwards, the charge being assault on Alejandro Garland in front of the De Soto apartment house at midnight Wednesday of this week.

It was said that Col. Edwards was at the Capitol, being detained there to await the serving of the warrant.

Death of Capt. John T. Lewis. Capt. John T. Lewis, an old resident of his city, died at his home, 630 F street southwest, Wednesday last, at the age of seventy-nine years. Mr. Lewis was born in Accomac county, on the eastern shore of Virginia, but for a half century had been a resident of this city. He was the founder of the tugboat business now conducted by A. J. Taylor & Bro., his nephews, and was interested in the oyster and other river business. Until about a year age he had been active, but the infirmities incidental to old age had for several months past kept him confined to his home. His wife, Mrs. Annie E. Lewis, and two brothers, residing in Virginia, survive him.

The funeral services will take place tomorrow marning with a mass of requiem in St. Dominic's Catholic Church. The interment will be in Mount Olivet Cametery. In respect to the memory of the deceased the flags of the tugz and steamers on the river are today flying a half-mast. ccomac county, on the eastern shore of

REHEARING DENIED.

Attorneys of W. G. Crawford Believed to Contemplate Appeal.

The District Court of Appeals has declined to grant a rehearing to William G. Crawford, whose conviction in the local criminal court of conspiracy to defraud the United States in connection with certain post office contracts, was recently affirmed by the appellate court. Chief Justice Shepard dissented to the

uling, as he did to the opinion of the court rendered by Mr. Justice Gould, who sat as a member of the court'in place of Justice Robb. The order denying the rehearing was verbal. It is understood that Attorney A. S. Worthington, for Crawford, will apply to

the United States Supreme Court for a certiorari order to have that court review the finding of the District Court of Ap-Crawford is under sentence to serve two years in the penitentiary at Moundsville.
